Climate Change: *Implications for British Columbia*

A Public Briefing on the IPCC 5th Assessment Report

Your opportunity to hear leading climate scientists and contributors to the report share the latest findings on global climate change, and what this means for BC.

The Intergovernmental Panel on Climate Change (IPCC) is releasing the first of three major reports on 27 September 2013. This briefing aims to explain the IPCC assessment process, the current extent of climate change, and what the future holds.

Date: Monday, 30 September 2013

Time: 9:30am to 11am

Location: Wosk Centre for Dialogue, 580 West Hastings St. Vancouver, BC

Webcast: <http://creative-services.sfu.ca/broadcast/>

Sponsored by the **Pacific Institute for Climate Solutions** and the **Pacific Climate Impacts Consortium**. **Free and open** to the public and media.
